

August 14, 2008

Dear DACC Members and Friends,

I'm proud to be a DACC Member and I hope you are, too. Look at all we've accomplished since the DACC was first established as a non-profit corporation in July 2000. Today, with more than 2,700 members and a full-continuum of services for our community, the DACC has almost fully achieved its vision, and none of these accomplishments would have been possible without you:

- An after-school enrichment program that serves up to 100 students.
- A state-of-the-art recreational facility featuring a fitness center and pool with aquatics programs.
- A preschool program for children ages 2 - 5.
- A state-licensed daycare program also offering infant care.
- A senior citizen's center with a lunch room and programming.

We still need your support. The DACC has already raised 90 percent of the total construction costs of approximately \$5 million, including infrastructure. The DACC must now raise the final 10 percent or \$500,000. We are organizing a Capital Campaign and are working to build a team of 40 - 50 individuals who share the DACC vision. These individuals will work together to raise the money to meet this obligation. DACC Member Charles Richter, Chief Compliance officer for Fenimore Asset Management and FAM Funds, has agreed to direct our efforts. Charles has already shared helpful information with our development committee about how best to accomplish our goal.

So much of the hard work to make the DACC a reality is behind us and we are already enjoying the benefits. Please consider joining our Capital Campaign Team. You can help us cross the finish line. Contact one of the front desk staff if you are interested in joining the Capital Campaign committee.

Sincerely,

Ken Romanski  
DACC President
